Press Release 11/1/14

Lone Star Blower, Inc announces a strategic partnership with GL- Turbo (GLT), a manufacturer of a complete line of integrally geared turbo blowers with variable inlet and discharge guide vanes. Effective January 1st, 2015 Lone Star will be the exclusive distributor in the territories of North and South America for GLT. Lone Star will provide packaging, sales, service and support to this market and handle all lines of distribution.

Per James Jin - owner of GLT, "Our advanced turbo technology was based on many years' research and development experiences by our founders at MIT and GE. After 8 years serving overseas market, we are excited to bring our products back to the Americas. Partnering with an experienced group like Lone Star we see the added value for both sales and service to our new market." he goes on to say " We see this opportunity to rapidly grow in this market with myself and our design team located here in Boston, MA USA to directly support Lone Star."

"GLT has an excellent product to bring to the market with a proven technology. With models starting at 30hp and up we can provide customers a high efficiency alternative they did not see possible before. With the GLT's owner and design center as well as the critical components such as impeller, shaft and gears made in the USA already, combined with Lone Star's distribution, packaging and service capability we see a strong alliance to expand our markets" Per Andrew Balberg - President, CEO of Lone Star.

Lone Star is a Manufacturer, Master Distributor, Packager, and Service company for blower and blower control systems. Plant will be located in the Houston Texas USA area and begin operations in January 2015. Initial products will include single stage turbo blowers (both gear driven and gearless), vertically split multistage turbo, and related blower control systems.

Industries served include Water and Wastewater, Power, Petro-Chemical, Oil and Gas Mining, and many others using compressed air or gas, pressure or vacuum applications.

Lone Star is now looking for agents and distributors starting in the North and South American markets.
