Press Release 9/15/14

Lone Star Blower, Inc announces a strategic partnership with Turbomax, Korea. Effective January 1st, 2015 Lone Star will be the exclusive distributor in the territories of North and South America for Tubomax's line of air foil bearing turbo blowers. Lone Star will provide sales, service and support to this market and handle all lines of distribution.

“I am very excited about this new partnership. Korea has been the epicenter of air bearing blower technology globally and while Turbomax is the youngest company to enter the market (2006) their superior technology has already achieve majority market share in Korea. With the experience of over 2,000 units produced and offering the widest product offering of this technology we expect to have an immediate impact in the market.” Per Andrew Balberg - President, CEO of Lone Star.

Harry Paek - General Manager of Americas for Turbomax, “ We are very pleased with this new arrangement as Lone Star offers an experience level with this technology and market knowledge to allow Turbomax to rapidly gain market share while offering responsive and knowledgeable service to our customers. “

Lone Star is a Manufacturer, Master Distributor, Packager, and Service company for blower and blower control systems. Plant will be located in the Houston Texas USA area and begin operations in January 2015. Initial products will include single stage turbo blowers (both gear driven and gearless), vertically split multistage turbo, and related blower control systems.

Industries served include Water and Wastewater, Power, Petro-Chemical, Oil and Gas Mining, and many others using compressed air or gas, pressure or vacuum applications.

Lone Star is now looking for agents and distributors starting in the North and South American markets.
